ABOUT OUR PRODUCT

F252518HB
F252921HB

產品說明：

產品採用本公司「二段式發明專利」的原理，可承載重量達120 kg之重型物件，以遙控方式操控，靈活行走於崎嶇路、沙石路、泥濘路、斜坡，甚至可以攀爬角度不一的樓梯，因此非常適合於建築工地上使用，從而減低建築工人的工傷勞損，大大提升工地的成本效益。

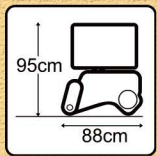

PRODUCT DESCRIPTION:

This product adopts our company's "Two-Part invention patent" principle to ensure it can be remotely controlled to agilely carry up to 120kg to negotiate rugged terrain with sand and mud and on slopes and even up and down stairs of irregular inclinations. It is therefore very suitable for use in construction sites to reduce work-related injuries and to greatly improve the cost-effectiveness of the construction process.
